

LIVE WITH CONFIDENCE

# CHOOSE YOUR LOCAL NATURAL POLYMERS™ CERTIFIED SPRAY FOAM INSTALLER

When spray foam is the right insulation type for your home, it's important to choose the right installer. Even if a contractor has been in business for many years, that doesn't mean they have the level of training needed for a highly technical insulation type like spray foam.

That's why we've enhanced our expertise by becoming a Natural Polymers™ Certified Spray Foam Installer<sup>1</sup>. We have specialists on staff who are thoroughly trained and assessed by the product manufacturer.

Our goal is to give homeowners like you peace of mind that your spray foam insulation is installed for optimal quality, safety and performance.

## TRAINED. TESTED. TRUSTED.

Working with a Natural Polymers™ Certified Spray Foam Installer means knowing your team is TRAINED, TESTED and TRUSTED to do the job right the first time.

- **Our team members are TRAINED** through intensive in-person sessions focused on installation best practices, and every installer has passed a comprehensive exam.
- **As a condition of our certification, Owens Corning conducted an in-person field audit of our install practices, business practices and equipment maintenance procedures.**
- **We are TRUSTED by the product manufacturer to install spray foam for maximum efficiency. To uphold our certification, we comply with all OSHA safety standards, Owens Corning® Certified Energy Expert® requirements, and maintain good standing with the Better Business Bureau.**

# We're Here to Help Make Your Home Quiet, Comfortable & Energy Smart.

When applied alone or used in combination with other insulation products, spray foam can be an important part of your home's high-performance insulation system.

- Offers advanced thermal performance with high R-values per inch.
- Expands to fit irregular or hard-to-reach spaces.
- Seals out drafts and helps prevent air infiltration.
- Contributes to healthier indoor air<sup>2</sup>

## Proud to Be Your Local Owens Corning® Certified Energy Expert® Professional

As part of our commitment to customer satisfaction, we maintain standing as our region's Owens Corning® Certified Energy Expert® professional. This means we are trained, tested and trusted by Owens Corning, the #1 most trusted insulation brand.<sup>3</sup> You can have additional assurance that we uphold the highest industry standards and practices and stay current on all required state and local licenses.

## We're ready to apply spray foam with confidence.
